Keynote speakers:

Ian T. Baldwin, Max Planck Institute for Chemical Ecology, Germany
Atul Butte, M.D., Ph.D., Stanford University School of Medicine
James Collins, Boston University and Wyss Institute, Harvard University
Trey Ideker, University of California, San Diego
Tom Mitchell, Carnegie Mellon University
Sarah A. Tishkoff, University of Pennsylvania

Key Dates:

Highlights abstracts due: Jan 16, 2014
Poster abstracts due: Feb 10, 2014
Early registration deadline: Feb 25, 2014
Conference: Apr 2-5, 2014

Topics of interest include:

Molecular Sequence Analysis
Regulation and Epigenomics
Molecular Evolution
Gene Expression
Biological Networks
Sequencing and Genotyping
Technologies
Metagenomics
Population and Statistical Genetics
Systems Biology
Computational Proteomics
Computational Structural Biology
Bioimaging

Co-located with:

RECOMB-Seq: 4th RECOMB Satellite Workshop on Massively Parallel Sequencing Mar 31-Apr 1
RECOMB-BE: 5th RECOMB Satellite Conference on Bioinformatics Education Apr 1

Jointly hosted by:

Carnegie Mellon University
University of Pittsburgh
